Aim-

Entrepreneurship Awareness Programmes are being organized regularly to nurture the talent of youth by enlightening them on various aspects of industrial activity required for setting up MSEs. These EAPs are generally conducted in ITIs, Polytechnics and other technical institutions, where skill is available to motivate them towards self-employment. The course contents of such Entrepreneurship Awareness activities are designed to provide useful information on product/project, selection and project profile preparation, marketing avenues/ techniques, product/service pricing, export opportunities, infrastructure facilities available, financial and financial institutions, cash flow, accounting, product casting etc.

Introduction-

The government of India has a number of effective schemes for the development of women entrepreneurs. These schemes are available in both urban and rural areas of the country. The government has introduced schemes for the production of national health, wealth and improved women empowerment. The current female contribution to India's GDP is one of the lowest proportions in the world, reflecting the fact that only 25% of India's labour force is female. The report estimates that more than 70% of the potential GDP opportunity resides in increasing women's participation in the labour force by 10% points. In 2018 report by MC Kinsey indicates that India has one of the largest opportunities in the world to boost GDP by advancing women's equality. It would lead to \$770 billion added by GDP by 202.

Objective-

The chief objective of the scheme is to produce more and more employment opportunities in both, rural as well as urban areas of the country. For this purpose, setting up of new self-employment ventures/projects/micro enterprises shall also be done.

(i) To let the entrepreneur set or reset the objectives of his business and work individually and along with his group for their realisation.

P. Kulkarni
DIRECTOR
Godavari Institute of Management
& Research, Jalgaon

- (ii) To prepare him for accepting totally unforeseen risks of business after such training.
- (iii) To enable him to take strategic decisions
- iv) To enable him to build an integrated team to fulfill the demands of tomorrow.
- (v) To communicate fast, clearly and effectively
- (vi) To develop a broad vision to see the business as a whole and to integrate his function with it.
- (vii) To enable him to relate his product and industry to the total environment, to find what is significant in it and to take it into account in his decisions and actions.

Rapporteur-

The purpose of the training and development function is to: Organize and facilitate learning and development. Expedite acquisition of the knowledge, skills, and abilities required for effective job performance. we can take look at exactly how you begin to plan and implement your training programmed.

What is government entrepreneurship scheme?

What are the government schemes promoting entrepreneurship in India?

What are the schemes launched by government for MSME holders?

How does the government support and promote entrepreneurship?

Outcome-

EDP helps in dispersal of economic activities in different regions by providing training and other support to local people.

(v) EDP develops the persons who are interested to work as job providers by establishing enterprises not to those who are job seekers. Thus, it helps in creation of employment opportunities.

(vi) EDP improves the standard of living of the weaker sections of society and involvement of all sections in the process of economic growth.

(vii) EDP develops motivation and competence necessary for successful launching, management and growth of the enterprise.

- To share technology, innovation and global best practices adopted by the developed countries and how it benefits them.
- Create about the commercial gain associated to IPR.

Report of the Event-

The Intellectual Property Right Cell, GIMR conducted a seminar on Intellectual Property Rights Awareness on **15 November 2019**. The main purpose of patent system is to encourage innovation and eventually results in technological development.

The speakers of the seminar **Prof. Sanjay Sughandhi**, KCE's College of Engineering and Management Jalgaon. Advisor-secretarial to Garware Polyester enlightened the audience with the basic knowledge of Intellectual Property focusing more on Patents and Copyrights. **Mr. Sughandhi sir** also explained the initial procedure of patent filing and the approach required for the entire patent filing process. He briefed about the various forms involved in the filing process and how to pursue patents search online or in the patent office.

In the end both the speakers solved various doubts raised by the students and also discussed about the patience level required to file a patent since the duration required to get a grant is normally 5 years in India.

Topics that will be covered during the programme are:

- Intellectual Property – Concept, Identification and Creation.
- Registering IP- procedure.
- Patent Informatics.
- Commercialization and Tech Transfer- Issues faced Academic Institutions.
- Copyright in India.

DIRECTOR
Godaver Institute of Management
& Research, Jalgaon

Learning Outcomes-

The IPR was helpful to the faculties and students in following ways:

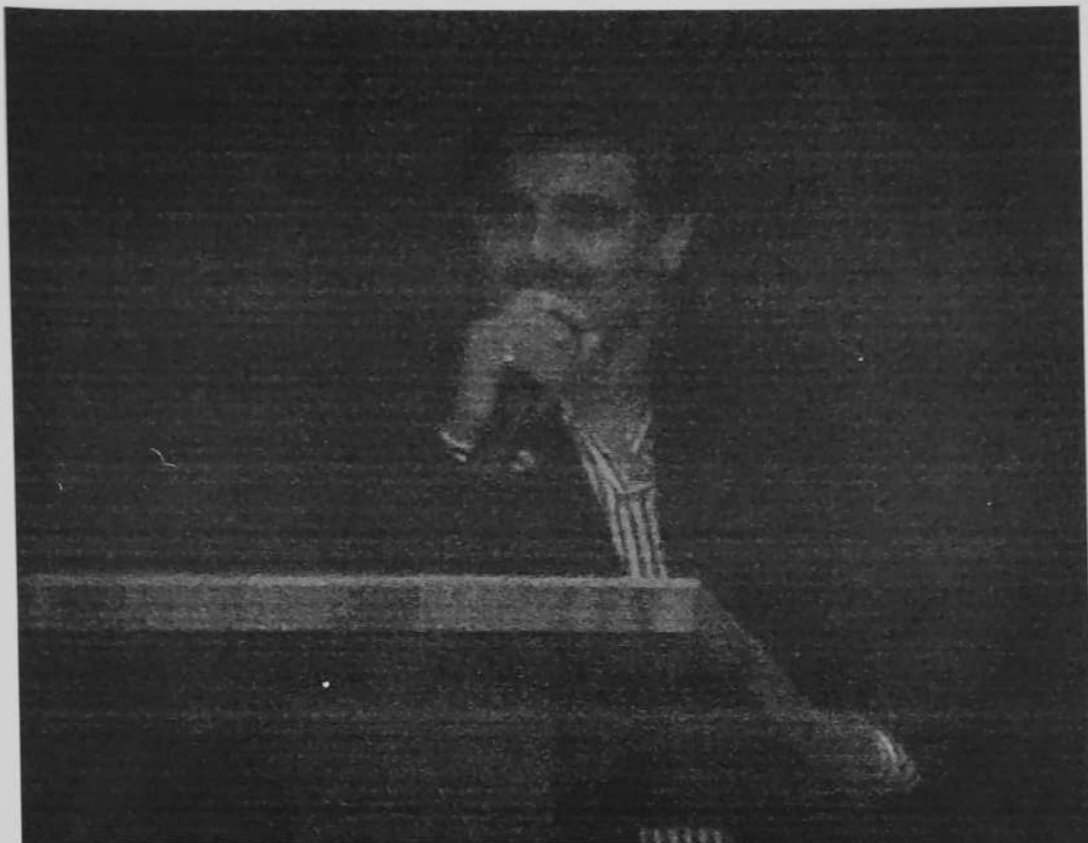

- 1.It helped the audience to know how to license a patent for others to use it or how you can sell it.
- 2.This IPR will give the students a view of the patent filing procedure in India.
- 3.It enthused the students and faculty towards filing patents on their projects and future startups.

An **industrial design right** is an intellectual property right that protects the visual design of objects that are not purely utilitarian.

An industrial design consists of the creation of a shape, configuration or composition of pattern or color, or combination of pattern and color in three-dimensional form containing aesthetic value.

An industrial design can be a two- or three-dimensional pattern used to produce a product, industrial commodity or handicraft.

A **trade secret** is a company's process or practice that is not public information, which provides an economic benefit or advantage to the company or holder of the trade secret.

Trade secrets must be actively protected by the company and are typically the result of a company's research and development.

Trade secrets are used to create a business model that differentiates the company's offerings to its customers by providing a competitive advantage.

Examples of trade secrets could be a design, pattern, recipe, formula, or proprietary process.

Learning Objectives-

The aim of this seminar is to acquire the analytical tools to tackle the key strategic challenges digital-native startups, scaleups and SMEs are facing, related to business and international growth. Mastering such tools is particularly important when it comes to valorising research results through exploratory innovation activities.

This seminar will introduce participants to business growth and international/global growth related strategic and management issues. After completing this seminar, the participant understands the business, management as well as financial issues of growing a business within companies and organizations of all sizes. Some specificities of scale-ups and large companies will also be covered.

Report-

GIMR organized One day seminar on **Business “Start To Growth ” on 09 November 2020 at 11.00 through zoom apps. Mr. Amit Joshi sir told** Entrepreneurship has become an increasingly popular field of study in universities across the world –whether it’s offered as a degree program or in the form of a dedicated startup lab.

Being able to identify a problem and come up with your own solution is something sounds fairly easy, but understanding and learning about the characteristics of what makes a good entrepreneur is a challenge in itself.

The opportunity to gain valuable professional skills in a safe space where you can put your learning into practice and benefit from an established support structure is something that many students are making the most of during their university experience.

Learning Outcomes-

1. Entrepreneurship and Innovation minors will be able to **sell themselves and their ideas.**
2. Entrepreneurship and Innovation minors will be able to **find problems worth solving.** Students advance their skills in customer development, customer validation, competitive

analysis, and iteration while utilizing design thinking and process tools to evaluate in real-world problems and projects.

3. Entrepreneurship and Innovation minors will **develop and cultivate endurance**. Students increase their awareness and deliberately practice the skills and disciplines necessary to increase confidence and agency.

4. Entrepreneurship and Innovation minors will be able to **mobilize people and resources**.

5. Entrepreneurship and Innovation minors will be able to **create value**. Students are able to create presentations and business plans that articulate and apply financial, operational, organizational, market.

During the session, Dr. Rajkumar Kankariya brilliantly explained the importance of skills. He gave the example of the Bisleri bottle and Coco Cola businesses. He was explained the advanced skills with a real-life case study of an entrepreneur.

The seminar ended with a vote of thanks proposed by Ashwini Sonowane (MBA-I Student). She thanked Dr. Rajkumar Kankariya for the highly informative discourse. She expressed her gratitude to all esteemed delegates of the seminar for their presence and contribution to make this seminar a great success. The seminar had an attendance of 101 students and faculty and was well appreciated by all.

It was a very enlightening seminar and students learned a lot about the Indian start up ecosystem.

Report of IPR on Intellectual Properties in Trade & Development

on

11th Nov. 2023.

Academic Year 2023-2024

Name of the Event- Seminar

Seminar Topic – IPR on “Intellectual Properties in Trade & Development”

Date-11/11/2023

Duration – 2 Hrs

Speaker Name- Mr. Pankaj Khadse

Participants - Student and Faculty Member.

Learning Objectives-

- To assist States in creating/developing a Strong IP ecosystem thereby.
- To sensitize the clusters about Intellectual Property Right and their protection.
- To identify protectable innovations.
- To suggest steps for transforming innovations into proprietary assets.
- To use IP information, particularly relating to patents and designs, for further research and development in developing new product and process.
- To Utilize the IP information in their business development.

Report of the Event-

A seminar on IPR was organised in GIMR on 11 November, 2023 **Mr. Pankaj Khadse** was the resource person. He gave a brief introduction on IPR and explained the various related terms such as copyrights, patents etc.

He also spoke on the basic concepts of Intellectual Property Rights. “Intellectual property” is type of property that results from creation of the human mind, the intellect .Intellectual property management starts with the germ of an idea. IP by itself neither helps nor hinders development necessarily. It is how laws, policies and practices are designed and used in different countries that determine whether IP is effective for development purposes.

Mr. Pankaj Khadse, stated that networking is very much necessary in order to facilitate the process of promoting Intellectual Property and this has to be ensured by organizations like FICCI. Speaking on the history of patenting in India, **Mr. Pankaj Khadse** mentioned that in the beginning, around 3000 – 3500 applications used to be filed but now the no. of applications filed have increased to around 43,600.

Students learn how IPR provides total control over a new innovation and its creator. They were also given a platform to discuss how small innovations influence societies at large and how they should indulge in innovating and patenting ideas that will be useful for all the classes of individuals in the society .The session was an interactive one as the speakers welcomed the questions from students and responded with effective answers. There are 159 students are participated. Prof. Aafrin Khan gave vote of thanks at the end of session.

Learning outcomes -

- Enhances market value
- Turn ideas and thoughts into profit-making assets
- Market your products and services
- Access or raise Capital
- Enhances export opportunities
