Do you have any suggestions regarding curriculum

15 responses

No

Work shop for regular students

Need to Arrange Training sessions for students weekly basis or monthly basis. To enhance skills of students.

focus should be on softskills , Student should be motivated for Make in India project launched by our Respect PM MODIji

Awesome

No, It's good

Do you have any suggestions regarding Development of GIMR

14 responses

No

If work on potential student and placement it will help us in education market

1. Document all trainings & skill enhancement programs programs in a particular booklet or can make presentations ,
2. make committee you can call it placement committee
3. Assign this project to the HR specialised students & ask students to contact top class companies & explain them about qualities of students of GIMR by showing presentations or documented activities or trainings you have conducted for students. Try to show the skill sets you have built in to students & try to generate interest of companies to conduct campus placements
4. By this way students will get opportunity to work on live project of recruitment & placement, & college can arrange placements

Make all top class companies know about GIMR

Yoga , Meditation programs should be compulsory for every teachers, backoffice staff & for all students as well , bcoz Healthy body & mind is the biggest & important Asset of human being. Also need to promote & motivate our very Rich Accident scriptures which is 100% scientific. And Which is actually so much important to reduce suicidal tendency in now a days youth.

Good

Nil

no

The campus interview should be organize by GIMR college

Yes

We were taught the syllabus very well

Understandble syllabus

Available study material for students

Most of students doing job so focus on online classes.

According to me their is no need to change anything in college,
I like the faculty and I feel I had the best environment for my studies. I learned many new things from my teachers who were very helpful in every way they could.

No mention

Excellent performance, teacher staff encourage properly

Curriculum is the outline of concepts to be taught to students to help them meet the content standards

The only suggestion is to provide study material to students in pdf format so that every one can get the material easily.

Good study

It's good

I understand that teachers are under a lot of pressure, and that they may not always have time to be polite. However, I believe that it is important for teachers to set a good example for their students. When teachers are polite, it shows students that they are valued and respected. This can help to create a positive learning environment, and it can make students more likely to want to learn.

I would like to suggest that the college implement a policy that requires all teachers to use polite language when interacting with students. This policy could be enforced by having a team of student advisors who observe classes and report any instances of impolite behavior.

I believe that this policy would make a positive difference in the college community. It would help to create a more respectful and supportive learning environment for all students.

Thank you for your time and consideration.

Sincerely
Jitendra Koli
