

Research Center in Commerce and Management

Godavari Institute of Management and Research, Jalgaon managed by Godavari Foundations, established “Research Center in Commerce and Management”—a separate entity (Awaited for approval from KBC North Maharashtra University, Jalgaon) to promote Research in Commerce and Management. The institute has a strong belief that education is never complete without exposing students to the dimension of research. The research center was established with a vision of fostering innovation and promoting analytical skills development among students and faculties. Research center has a dedicated team of actively working faculty. The objective behind is to encourage, guide and coordinate the initiatives of the faculty and students towards doctoral research in Commerce and Management, towards various research projects, towards organizing of national and international conferences, towards presentation of research papers and their publication in reputed journals, and other research-related matters.

Objectives of Research Center in Commerce and Management

- To facilitate the development of research skills in the students and faculty.
- To encourage use of research methods as an academic tool enriching the analytical skills of students and faculties.
- To enrich and map personal and professional competence and plan competence development among the students and faculties.
- To maintain responsible conduct of research and make judgements about good research practice.
- To provide an opportunity to identify & analyze real business situations and develop plan and career goals.

Conduct of Research

The Godavari Institute of Management and Research, Jalgaon has following principles concerning research:

- The researcher should aim to avoid biasness in any aspect of the research, including design, data analysis, interpretation, and peer review.
- The researcher needs to respect copyrights and patents, together with other forms of intellectual property and always acknowledge contributions of their research. Also should avoid risk of plagiarism.
- The Management shall create conducive environment to research by providing suitable infrastructural facilities such as space, library, lab facilities and funding if available, based on the merit of the proposed research plan.

- The Management authorizes the Director to initiate, promote and monitor the research activities in the institution by constituting a Head of the Research Center. The Research center will consist of approved Ph.D. guides of KBC NMU, Jalgaon as members along with one advisory member not below the rank of Professor from other reputed college/Institute.

Research Policy

Research is one of the pioneer aspects of academic activities which help institution to achieve excellence in the field of education. It includes quality of learning and knowledge development. It helps to create and propagates new avenues in knowledge and promotes innovation among faculties and students.
